Kritha Group

Our company is mainly manufacturing, supplying and trading an extensive array of **Hardware fittings and Accessories** for the **extra high voltage transmission lines and substations**.

In our fabrication unit, we are manufacturing numerous different hardware items for the **construction, agriculture and retail sectors**.

About Us:

Kritha Group is formed by combining different verticals of our production and selling units. Our business verticals include **Kritha Fabrications**, **Kritha Industries**, **Kritha Electroplating**, **Kritha Hardware's and MJ clamps**.

We started our operation in the year **1995** as a fabrication company concentrated only on metal fabrication works related to **Hardware fittings & accessories for the high voltage transmission lines and spare parts for the heavy-duty vehicles**. After our successful business in fabrication vertical we started our Engineering and tools manufacturing unit, Electroplating unit, Household tools & Hardwares production unit and warehouse & sales unit.

All our production units are located in the southern part of India - Madras. Our different business units are independently operating on different places in Madras (Chennai) - **Chromepet, Park Town and Guindy** . As a **19** year old company we have broad range of experience in all kinds of metal related engineering and fabrication works. we have more than 40 highly skilled employees working on different verticals of our organisation.

By our vast experience in the industry, We are also doing contract projects inside the client premises by employing our work contractors and specialists under our design and technical management team. Finally, We are **proud** to say that we are also a Machine designers and manufacturers by passion. We designed and build our own **100/150 tonnes** heavy-duty power press machines!!!.
